This is a machine for drying and polishing cups and glasses, and finish with the hard job of drying by hand, making this process more hygienic with a professional finish in a few seconds.

Datos Técnicos

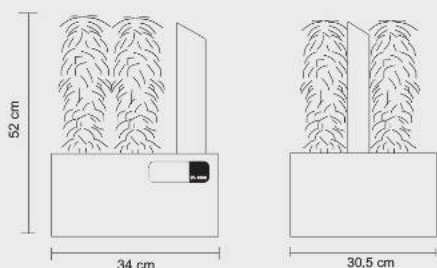

■ Producción	240-360 piezas/hora
■ Consumo	1100 w
■ Ventilador	Aire caliente
■ Voltaje	230 -110v/ 50-60 Hz.Monofásica
■ Peso neto	16 Kg
■ Dimensiones	34 L x 30,5 An x 52 Al cm

Technical Data

■ Production	240-360 pieces/hour
■ Consumption	1100 w
■ Fan motor	Hot air
■ Voltage	230 -110v/ 50-60 Hz.Single phase
■ Net weight	16 Kg
■ Dimensions	34 L x 30,5 D x 52 H cm

Données Techniques

■ Production	240-360 pièces/heure
■ Consommation	1100 w
■ Ventilateur	Air chaud
■ Alimentation	230 -110v/ 50-60 Hz.Monophasé
■ Poids net	16 Kg
■ Dimensions	34 L x 30,5 P x 52 H cm

Características Generales

- Abrillantado profesional
- Compatible con todo tipo de vasos y copas
- Rodillo de fibras naturales, flexible y absorbente
- Secado mediante ventilador de aire caliente
- Fabricada en acero inoxidable
- Aporta un alto grado de higiene a la vajilla
- Reducidas dimensiones

General Characteristics

- Professional polishing
- Suitable for any type of glasses and cups
- Natural fibres brush, flexible and absorbent
- Hot air drying
- Manufactured in stainless steel
- Providing a high level of hygiene to the glassware
- Small dimensions

Caractéristiques Générales

- Professionel polir
- Convenable pour tout type de verres et tasses
- Brosse de fibres naturelles, flexible et absorbant
- Sécher avec l'air chaud
- Fabriqué dans acier inoxydable
- Fournir un haut niveau d'hygiène à la verrerie
- Petite dimension
